CAUTION

NOTICES TO MARINERS

1. Up to the 31st December, 1933, Notices to Mariners were published by the Admiralty to meet the requirements of the Navy and by the Board of Trade to meet the requirements of the Mercantile Marine. The Notices are now issued by the Admiralty for the use of both services.

2. *For foreign-going vessels* the following Notices to Mariners are issued :—

(*a*) Daily Notices. Issued only to disseminate information of an urgent nature or of major importance.

(*b*) Weekly (complete) edition of Notices. An edition containing information which has become available during the previous week for the correction of the Admiralty Charts, Sailing Directions, Light List, and other hydrographic publications.

(*c*) A quarterly edition containing, in a collated form, the hydrographic information published in the weekly editions for foreign-going ships during the previous quarter.

3. *For home-trade and fishing vessels* the following Notices to Mariners are issued :—

(*a*) Daily Notices. Issued only to disseminate information of an urgent nature or of major importance.

(*b*) Weekly (home-trade) edition of Notices. An edition relating to the area traversed by home-trade and fishing vessels, containing information which has become available during the previous week for the correction of the Admiralty Charts, Sailing Directions, and other hydrographic publications. *Note.*—This edition is printed on *green* tinted paper.

4. On 1st January of each year the Board of Trade publishes and distributes, for the use of foreign-going, home-trade and fishing vessels, a book containing general information for the guidance of Mariners, e.g., notices regarding distress signals, life-saving, various special signals, etc.

5. *How to obtain the above Notices* :—

(*a*) Masters of *foreign-going* ships may obtain the daily Notices to Mariners, the weekly (complete) and quarterly editions of Notices to Mariners and the annual book, through Mercantile Marine Offices in Great Britain and Northern Ireland. The weekly (complete) and quarterly editions and the annual book may be inspected and in many cases copies obtained at all important shipping offices in the Dominions, India and the Colonies, and at all important British Consulates.

(*b*) Masters of *home-trade and fishing vessels* may obtain copies of the daily Notices to Mariners, the weekly (home-trade) editions of Notices to Mariners, and the annual book at Custom Houses in Great Britain and Northern Ireland.

NAVIGATIONAL WARNINGS.—In addition to the above, Navigational Warnings of an urgent nature are broadcast by certain coast wireless stations in Great Britain and Ireland as well as by the British Broadcasting Corporation. A list of the Wireless Stations from which, and the times at which, the Warnings are broadcast is published in the Board of Trade Annual Book of Notices.

Masters are recommended to arrange wherever possible for the W.T. operator to listen in to the broadcast immediately preceding the time of sailing for any warnings affecting their routes.

NOTICES TO WIRELESS TELEGRAPH OPERATORS.—Notices to Wireless Telegraph Operators are issued to Masters, who are responsible for the supply of these Notices to the Wireless Operators. These notices are issued when required, not necessarily at regular intervals. They can be obtained free of charge from any Mercantile Marine Office or Custom House, where they are retained for six months, after which application for missing or back numbers should be made to the Inspector of Wireless Telegraphy, General Post Office, London, E.C.1.

Wireless Operators should see that a complete file of current Notices is kept in the Wireless Office, and should ask the Master to procure copies of any missing numbers.

The Marine Observer

is the quarterly review of the Marine Division of the Meteorological Office in co-operation with the captains and officers of 350 British ships in all parts of the world who act as voluntary observers.

It provides information of winds, and currents, weather, climate, derelicts and ice. It deals with meteorological problems in navigation; and provides information of the principal wireless weather signals used on all coasts and in all oceans.

Primarily intended for seamen, it conforms to the language of the sea rather than to the technical language of scientific meteorology. It will appeal to those interested in navigation and meteorology. Its aim is to promote accurate meteorological observation and safe navigation.
